

## Adoption questionnaire

We do not sell dogs, but look for the best homes for their entire lives. It is a commitment to a living, sentient being. It is also a commitment to us, the people who saved the dog. Often these animals require treatment, surgery, long administration of medication. Often these are dogs that cause behavioral problems for their current handlers. Caring for them takes time, a lot of work, patience and, above all, love. That is why we want to meet new owners of the rescued dogs before adoption. By adopting a homeless, injured animal, we make it a promise that we will take care of its future and that nothing bad will happen to it. We want to keep our word and we hope that you will help us in this.

*\* In the current pandemic situation, there is a lot of interest in adoptions. Therefore, we do not consider homes that want to adopt a dog just for a lack of other entertainment.*

*\* We reserve the right to choose the best home for the pet we care of.*

We kindly ask you to provide comprehensive answers to the questions contained in the questionnaire, which will allow us to get to know you better. Answers such as: ,yes/no,' ,I don't know,' ,always' etc. do not tell us much and do not facilitate the decision to adopt.
